## Wholesale catalogue

### Wholesale Catalogue General Terms and Conditions

1. *Volume, Time and the committed amount is applied to products/ services on individual basis.*
2. *Unit price per product/ service will be constant throughout the contract period unless the RIO prices have changed, and its calculation is based on the initially committed volume and time.*
3. *Contract Termination*

*The wholesale catalogue-based contract could be terminated under any of the following conditions:*

- *End of the contract period along with fulfillment of Customer financial commitment to Jordan Telecom by paying all the contractual committed amount of money.*
- *Customer request to end the contract during the contract period provided that Customer has fulfilled his financial commitment to Jordan Telecom by paying all the contractual committed amount of money.*
- *Customer request to end the contract at any time during the contract period with no written termination notice to JT. In this case, Customer is obliged to pay Jordan Telecom the remaining committed amount of money.*
- *Customer request to end the contract at any time during the contract period with a written termination notice 1 month prior to contract termination. In this case, Customer is obliged to pay 75 % of the remaining committed amount of money.*

4. *Contract Amendments*

*The wholesales catalogue-based contract will be amended under any of the following conditions:*

- *Changes in RIO prices.*
- *Request by Customer during the contract period to increase his time commitment, this can be done subject to the following:*
  - *Paying a portion of the committed amount of money on pro rata basis, based on the time which has already elapsed since his contract was signed.*
- *Commitment from Customer to a new time and volume ranges not less than the current contract commitments.*

5. *If the RIO prices have changed during the customer's contract period, this change in the prices will be passed to the wholesales catalogue as of the date of change to the prices. The new prices will be reflected on customer's remaining committed amount as follows:*

$$M2 = M1 * P2 / P1.$$

*Where:*

*M2 = New remaining committed amount  
M1= Initial remaining committed amount  
P1 = Initial wholesale committed unit price  
P2 = New wholesale unit price*
